Skills

- HTML
- CSS
- Ui/ux
- Digital marketing
- Designing
- Sales

Projects

- **Sales and stock prediction**
  Using this HTML and CSS we have builder frontend .
  We used python to analyse the prediction.
  This predicts in the old and present market value and predicts the future values
- **Library management**
  We have used the HTML CSS for the front end for the storing data we have use the SQL database which contains of login users and adminuses
